ASSEMBLY

Push down on the corners of the container, then press down on the sides until you hear the clicks confirming it is in place

OPENING

Hold the flap in the open position. The flap has two side areas to rest your fingers on and manipulate it

TEMPORARY CLOSURE FEATURE

Open the flap by pressing the tab and move the flap into the locking position

FINAL CLOSURE FEATURE

Move the flap into the temporary closure feature position and press down on either side of the flap as indicated by the circles until you hear the clicks confirming the closure

SHARPS REMOVAL SYSTEM

Compatible with Vacutainer, Venojet, insulin pens and other systems for disposing of needles and medical instruments

HANDLE

Handle for carrying and/or securing the container to the wall bracket

RAIL/WALL BRACKET

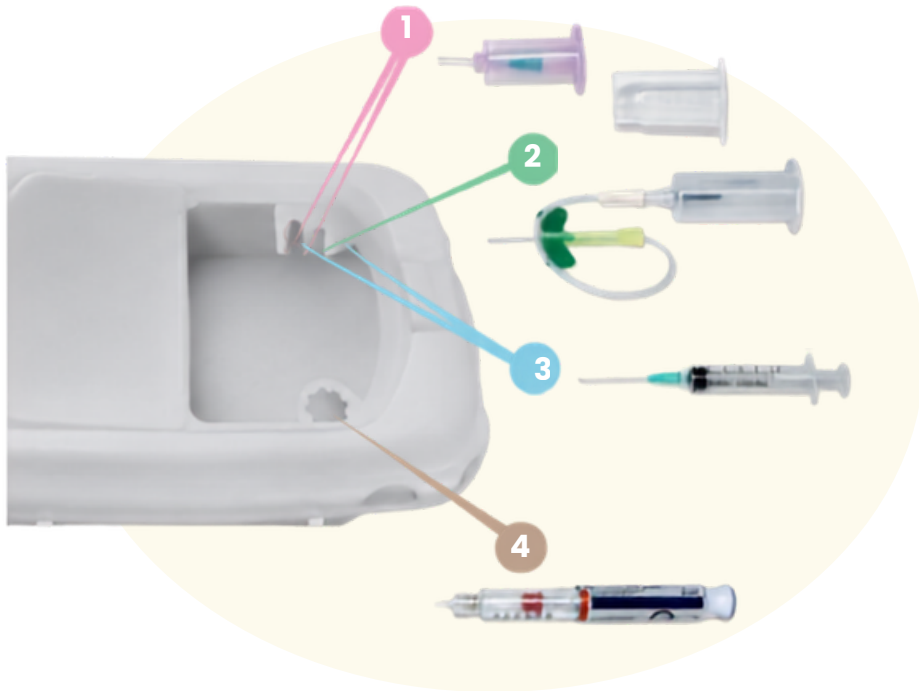

The container bracket can be fitted to a vertical or horizontal rail, or directly to the wall
